

# COVID-19 DONOR-SPECIFIC SCREENING

Your staff needs a forum to communicate quickly when there are clinical concerns on referrals or donors, this is more critical than ever. TXP Chat™ makes that connection --- your Medical Director, AOC and clinical staff can get answers quickly and efficiently.

HIPAA Secure communication so all pertinent information can be shared quickly

Group conversations so additional people can be added (with history) as needed

Ensure critical information is communicated by referencing conversation throughout the evaluation process; regardless of staff member changes
